# Risk Register

	No.	Risk Description	Root Cause	Mitigation Strategy	Probability	Impact	Responsible Party
I n c e p t i o n	Inc1.1	Unclear project objectives	Poor stakeholder communication	Regularly communicate with stakeholders to ensure alignment	Medium	High	Project Manager
	Inc1.2	Insufficient funding	Budget constraints or inaccurate estimations	Implement strict budget controls and monitor expenses closely	Medium	High	Financial Manager
	Inc1.3	Key team member availability	Competing commitments or unforeseen circumstances	Cross-train team members and establish backup plans for critical roles	Low	Medium	Project Manager
I n i t i a t i o n	Int1.1	Scope creep	Unclear project scope	Implement change control procedures and prioritize requirements	High	High	Project Manager
	Int1.2	Inadequate availability of skilled resources	Limited availability of skilled resources	Conduct resource capacity planning and consider outsourcing options	Medium	High	Resource Manager
P l a n n i n g	Pln1.1	Inaccurate project estimates	Lack of historical data or inaccurate assumptions	Conduct thorough project planning and utilize expert estimation techniques	Medium	High	Project Manager
	Pln1.2	Technology adoption challenges	Complexity of new technologies or tools	Provide training and support for team members, pilot new technologies	Medium	Medium	Technology Lead
	Pln1.3	Communication breakdown	Inadequate communication channels or processes	Establish clear communication protocols and ensure regular team meetings	Medium	Medium	Project Manager
D e s i g n & D e v.	Dev1.1	Integration challenges	Compatibility issues between different systems	Conduct thorough integration testing and implement standardized interfaces	Medium	High	Technical Lead
	Dev1.2	Scope changes	Changing requirements or stakeholder requests	Implement change management processes and prioritize requirements based on impact	Low	Medium	Project Manager

	Dev1.3	Quality assurance deficiencies	Inadequate testing or quality control measures	Implement rigorous testing protocols and utilize automated testing tools	Low	High	Quality Assurance
I m p l e m e n t a t i o n	Impl.1	Deployment delays	Technical issues or unexpected complications	Develop a comprehensive deployment plan and conduct thorough testing	Medium	Medium	Project Manager
	Impl.2	User adoption challenges	Resistance to change or insufficient training	Provide user training and support, communicate benefits of new system	Medium	Medium	Change Management
	Impl.3	Service disruptions	Infrastructure failures or external factors	Implement redundancy measures and establish contingency plans	Low	High	Technical Lead

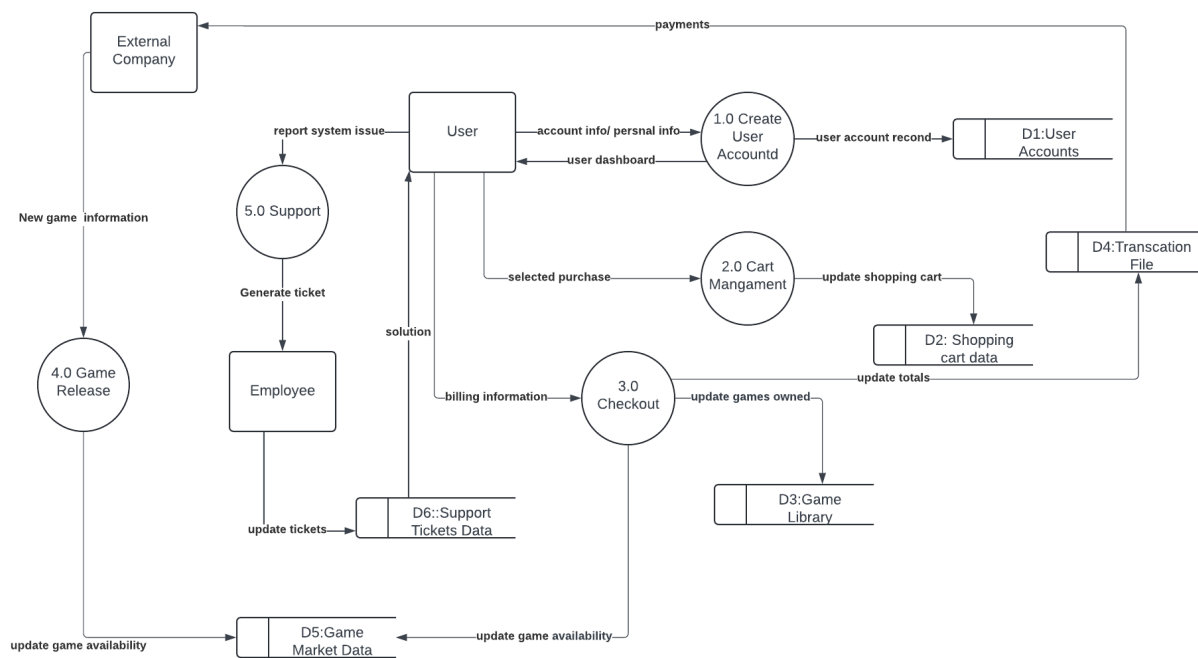

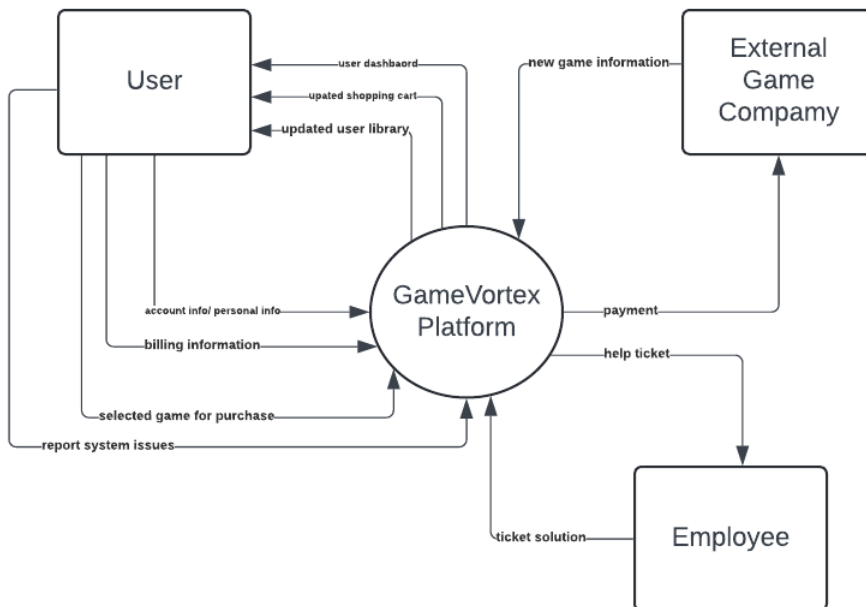

## Collection Relationship Diagram

# Data Dictionary

	A	B	C	D	E	
1	Entity	Attribute	Description			
2	User	User ID	Unique identifier for the user.			
3	User	Username	Public name displayed for the user.			
4	User	Password	User's login credential (hashed for security).			
5	User	Account information	Billing address, payment information, etc.			
6	User	Selected game for	Game the user intends to buy (may be in cart).			
7	User	Help ticket	Request for assistance submitted by the user.			
8	User	User dashboard	Interface for managing account, viewing purchases, etc.			
9	Game Company	Name	Name of the company that develops video games.			
10	Game Company	New game informa	Details about games not yet available (e.g., release date, trailers).			
11	Game	Game ID	Unique identifier for the video game.			
12	Game	Title	Name of the video game.			
13	Game	Genre	Category of the video game (e.g., action, adventure).			
14	Game	Release date	Date the game was officially released.			
15	Game	Purchase informati	Cost of the game.			
16	Game	Downloadable cont	Information about additional content purchasable for the game.			
17	Transaction	Transaction ID	Unique identifier for a purchase or other financial action.			
18	Transaction	User ID	ID of the user who made the transaction.			
19	Transaction	Game ID	ID of the game purchased in the transaction.			
20	Transaction	Date/time	Date and time the transaction occurred.			
21	Transaction	Amount	Money spent in the transaction.			
22	Cart	Cart ID	Unique identifier for a user's shopping cart.			
23	Cart	User ID	ID of the user who owns the shopping cart.			
24	Cart	Game ID(s)	ID(s) of the game(s) added to the cart.			
25	Cart	Quantity	Number of copies of each game added to the cart.			
26						

# DFD's

## Lessons Learned

Ashari: In the process of this project, I have learned how to draw different diagrams and graphics to present my ideas to others. I have also learned about some of the project manager's duties. In the future, I would put more time into the actual design such as wireframes.

Lauren: Throughout this project, I have learned many aspects of project planning, many of which I have never heard of. I've learned the fundamentals of project management including time management, budgeting, identifying risks, and paying attention to details.

Benito: During the lifespan of this project, I have learned many different skills and terminologies but most importantly of all I learned how to work together as a team and communicate on what to collaborate on and what to delegate amongst ourselves.
